MASKS – Students must wear a mask at all times during the school day when 6' social distancing is not possible. Masks need to have a proper fit and have a design that is appropriate for school; no profanity, or inappropriate graphics. Families may use their discretion beyond this requirement. St. John's is not requiring a solid color or specific kind. Principal Johnson reserves the right to refuse the use of a mask that violates this mask dress code. A Student will be provided with one surgical mask until the next day. If a Student forgets a mask, one will be provided for them. If a Student consistently forgets a mask, the Family will be notified so the situation can be rectified.

No deviation or interpretations of the uniform policy is acceptable.

Students are expected to be in the complete and proper uniform each school day. This is just one of the ways that both parents and the school teach students the importance of following school rules and developing responsibility in each child. After one warning of a uniform infraction parents will be called and asked to bring in whatever part of the uniform that is missing.
